SHEETROCK® COVE CORNICE

Description

SHEETROCK[®] Cove is Knauf's lightweight paper face cove cornice. Using innovative core technology, SHEETROCK Cove is 5% lighter than previous Knauf Cove products* and has high strength-to-weight composite design.

Encased in a strong 100% recycled paper liner, SHEETROCK Cove provides a rigid cornice making carrying, handling and installing easy. Ideal for residential and commercial internal ceiling applications. Available in 55, 75 and 90mm profile sizes and up to 4.8m lengths.

*Compared to Knauf Standard Cove 55, 75 and 90mm

Cornice Specification

Feature	Description	
Thickness	10mm thick members	
Profiles	55mm, 75mm and 90mm	
Lengths	55mm (4800mm) 75mm (4800mm) 90mm (3600-4800mm)	
Paper Colour	Buff	
Mass (nominal)	55mm (58kg/100Lm) 75mm (90kg/100Lm) 90mm (118kg/100Lm)	
VOC	Less than 0.5mg/m3 TVOC	
GECA	N/A

Finishing and Decorating	 For high-quality finishing results, Knauf recommends the following products: 	 AS/NZS 2589: 2007 Gypsum linings – Application and Finishing, should be referred to in order to determine 	
	 Knauf Cornice Adhesive eg. Cornice Adhesive 45 or 60 	the level of finishing needed to ensure a surface properly prepared to accept the final decoration.	
Installation	Refer to Knauf website knaufapac.com. or call TecASSIST® on 1800 811 222		
Compliance	 Qualifies as low VOC emitting material, less than 0.5mg/m3 TVOC 	 Classified as non-hazardous in accordance with NOHSC Australia 	
Sustainability	Knauf products are manufactured from a combination of natural gypsum, and paper liner made from 100% reclaimed and recycled paper waste. Plasterboard waste can be reclaimed and recycled into new plasterboard, or reused as soil conditioner.		
Volatile Organic Compounds (Voc) and Formaldehyde Minimisation	Knauf products, compounds and adhesives have been independently tested to confirm compliance with Green Star specification limits for VOCs.
